Not a soap or detergent
PH balanced to skin (6.5)

BASIC H2

Suggested uses only

NON-POLLUTING
Non-Toxic
Non-Irritating
Non-Magnetic
Non-Volatile

CLEANING HANDS: Place a few drops of Basic H in the palms of your hands. Add a little water and wash as usual. Grease, grime and dirt disappear.

FLOORS: Mop floors with 1 Tbsp. Basic H to a gallon of water. Wring mop dry, wipe up spots and dirt, leaving floor shining and clean.

MIRRORS, WINDOWS, GLASS TOPS, DECORATOR PIECES: Just add 1-2 "drops" of Basic H to a pint of water or put in a 16 oz. spray nozzle unit. Wipe dry with a paper towel or lint-free cloth.

Cost: under a penny a pint!

DELICATE WASHABLES: Mix 1/2 Tbsp. to a gallon of water. Basic H is effective, yet mild enough to clean the most delicate fabrics, including wools, silks and synthetics. Panty-hose and nylons stay soft and pliable.

GENERAL CLEANING: 1/2 tsp in a quart of warm water to instantly clean kitchen doors, woodwork, walls, or ceilings.

KITCHEN APPLIANCES: Add 1/4 tsp of Basic H to a pint of water for cleaning appliances.

DUSTING: 1/8 tsp Basic H per pint of water; spray on dusting cloth or spray directly on furniture, being sure to wipe dry with a cloth. The varnished surface stays bright and non-magnetic, making it unnecessary to dust as often.

CLOTHING SPOTS: Apply a few drops of Basic H directly to the spotted area, work in with water, put in laundry and wash.

AUTOMOBILES: Use 1/2 Tbsp in a gallon of water. Wash small area at a time. Hose off - no wiping dry. Wash windows, chrome etc. with paper towels or lint-free cloth.

DISHES: Use 1/2 tsp. + water in pans, bowls etc. as "soak solution" to loosen stuck-on food.

PAINTERS, CEMENT LAYERS, MECHANICS: Use Basic H to clean your hands and equipment.

FRUITS AND VEGETABLES: Mix 1/2 tsp per sink full of water. Wash, then rinse. Removes insecticide residue and surface grime.

WALLPAPER: Excellent in removing wallpaper.

PROTECTING HANDS: Apply to hands, full strength for lasting protection as an industrial skin guard. Great as invisible glove before painting.

GUM: Use full strength to remove gum from skin, hair, carpeting etc.

BURNS: Apply to stove or oven-type burns or sun burn full strength for immediate relief.

MOSQUITO REPELLANT: Non-toxic, non-greasy, no-fragrance, hypo-allergenic, easy to apply (full strength or diluted and spray on and rub in).

SHOE CLEANER: Use 1 drop on a wet cloth. Will not remove wax. Shine with a dry cloth.

GREEN LAWNS: Use 1-1 1/2 Tbsp to "ortho-type" bottle applicator full of water. This should let 2 gallons of water through applicator to spray on lawn.

HOUSE PLANTS: Use 1/2 tsp per gallon of water for watering plants. Use to wipe off leaves also.

HUMIDIFIERS: Use 1-2 drops in water to help prevent rust and scum.

AUTOMOBILE RADIATOR: Use 1/2 Tbsp. to radiator full of water or anti-freeze, to prevent rust.

FISH ODORS: Use 1/2 Tbsp. per quart of water.

KNIVES: Use a few drops on cutting stone for sharpening - keep moist and add more as needed. Doesn't clog stone and rinses free of residue.

"IF IT'S SAFE IN WATER -- IT'S SAFE IN BASIC H"
(Use your imagination and discover tons of other great uses!)

"AT EASE" -- Scouring Compound

Use scouring pad if scratching is not a problem, or use a soft cloth. USE LOTS OF WATER. At Ease will not scratch most surfaces, it is pleasant smelling, kind to lungs, easy on hands (no rubber gloves necessary), extremely versatile and effective.

USES: Sinks * Tubs * Ceramic Tile * Shower Doors * Toaster Tops * Pots and Pans * Ovens
Removes rust and tar off chrome of car, etc. * Counter Tops * Marks off walls (test first) *

Marks or spots on glass items * CorningWare Tops * Use your imagination for other uses!

"BASIC I" -- Industrial Cleaner (With 9 Degreasers!)

Use 2-4 Tlbs. in Pint Sprayer for:

1. Tile Cleaner (in place of Dow Bathroom Cleaner, etc.)
2. Heavy Duty cleaning of walls and other painted surfaces (in place of 409 etc.)
3. Clothes spotter (in place of Spray 'N Wash, Shout, etc.)

COST: under \$0.50 per pint compared to over \$2.00 for Spray 'N Wash!

Use 2-4 Tlbs. in Gallon Of Water for:

1. Cleaning garage floors
 2. Soak oven racks
 3. Clean lawn furniture or outside of house
 4. Clean off greasy car engines, lawn mowers, and other equipment
-

"BASIC G" -- Germicide, Disinfectant, Deodorizer, & Cleaner, ALL IN ONE!

A. Use 1 Tlbs. per gallon of water (or 1/4 tsp. per pint sprayer) for:

1. Bathrooms (Tub, Tile, Floors, Sinks, Toilets)
2. Garbage Cans, Telephones, Fishing Boxes, Boats, etc.
3. Refrigerators and Freezers
4. Clean and disinfect feeding and sleeping quarters for pets. Deodorize litter boxes.
5. Kill infectious bacteria in playrooms and children's rooms.
6. General Cleaning Solution -- go throughout the house, SAFE on almost all surfaces.

B. Put 1-2 Tlbs. in with LAUNDRY to eliminate "smelly odors" - kills germs. Use also as a soak solution in the Diaper Pail.

C. Put 2 tsp. in pint sprayer, use as Spray Disinfectant.

D. Use as a soak solution for cuts, poison ivy, rashes: 1-2 tsp./gal. water.

CAUTION: Keep out of reach of children - harmful or fatal if swallowed.
