You do NOT have to sell, only refer. It's just like a good movie or a good sale you would want to tell your friends about that wouldn't you? How many times a day do we hear someone express an interest or concern with the above issues? All you need to say is, "I know someone that may be able to help you with that, would you like me to have them give you a call?"

Give your friends the gift of Shaklee !
